# Publication Notice

This public edition presents the vision, product direction and current development status of the project. It is not an offer to sell securities, tokens or investment products; it does not promise returns; and it does not represent planned services as active. Product launches remain subject to security testing, legal review, provider approval, operational readiness and applicable law.

## 01 / EXECUTIVE SUMMARY

Baron Cryptos Store is a specialist, founder-owned retailer for people who use cryptocurrency, build blockchain products, practice self-custody or participate in crypto culture. It brings security accessories, hardware, apparel, collectibles, desk products, education and gift packs into one curated retail identity.

## 02 / CUSTOMER PROMISE

Careful sourcing, transparent product information, secure packaging and responsive human support. The store does not sell, broker, exchange or custody cryptocurrencies and does not provide investment products or guaranteed returns.

## 03 / PRODUCT CATEGORIES

Self-custody backup products; hardware wallets from authorized sources; fire-resistant storage; security keys; protective cases; apparel; mugs; notebooks; desk mats; wall art; collectibles; books; beginner kits; and curated corporate or event packs.

## **04 / SAFETY PRINCIPLES**

The business will never request, collect, photograph, engrave or store a customer seed phrase, private key, password or recovery data. Hardware wallets must be factory-sealed and sourced from manufacturers or authorized distributors. Decorative coins must be identified as collectibles with no cryptocurrency value.

## **05 / BUSINESS MODEL**

Revenue comes primarily from retail product margin, curated bundle margin, branded merchandise, corporate orders and carefully selected partnerships. Launch inventory will prioritize visually strong, low-to-medium capital products and expand only after demand and supplier quality are proven.

## **06 / ROADMAP**

Foundation: brand, suppliers, samples, policies and checkout. Pilot: focused listings, preorders and first deliveries. Optimization: retain winning products and improve fulfilment. Expansion: authorized hardware, national distribution, selected regional markets and long-term international retail.

## 07 / GLOBAL POSITIONING

Baron Cryptos Store is built for a global audience while beginning with disciplined, market-by-market operations. Logistics, consumer protection, warranties, tax and product compliance will be evaluated for each jurisdiction.
